Hi Steve,

Yes! Absolutely. I have not yet sent out an agenda but aim to do that at the latest by Monday June 18, ideally by COB tomorrow. So you haven't missed anything. The purpose of the meeting is to determine if EPA, NMFS, FWS, and Interior (or some subset of that group) are interested in providing coordinated, fairly developed concepts for updating water quality objectives in the Delta Water Quality Control Plan. Objectives that we're going to discuss are: Delta outflow objectives (X2), export/inflow objectives, and potential new reverse flow objectives for Old and Middle Rivers.

Erin --

could you please add me to the email list for this meeting? Any details on when and where? I'm getting all my info second-hand.

Thanks.

Steve

Mike, et al.,

As a followup to our discussions this morning and my previous email, I'm forwarding the link to the doodle poll to attend this meeting with EPA and NMFS to discuss the coordination of comments to the State Board re: the Bay-Delta Plan. Julie and I will not be available the week of June 18 to participate in this meeting, so I'm sending this to Leigh, Steve and Matt to fill out their availability for that week.

Please let me know if you have any questions, or need more information.

Subject: Schedule discussion about SWRCB update of Delta Water Quality Control Plan

Hi Everyone,

I'm organizing a meeting between EPA, FWS, and NMFS to discuss the update of the State Water Board's Water Quality Control Plan for the Delta. Each of our agencies provided comments to the NOP. The goal of this meeting is to determine if there is interest in providing the State Board some well developed concepts/ideas for updating specific water quality standards including Delta outflow objectives, export/inflow objectives, and potential new reverse flow objectives for Old and Middle River. If there is interest, then I'd like to have the group choose specific objectives and identify a plan for providing coordinated feedback to the State Board.

If you are interested in participating in this discussion please fill out the doodle poll so I can determine a date and time. EPA is a bit limited in June and we have three days to propose right now. If none of them work, I'll start again.

Participation link
Send this link to anyone you wish to invite.
